# WE ARE HIRING

**KeyByte**

KeyByte LLC is a cloud and on-premise database company. We're looking for undergrad interns with a background in Computer Science or Computer Engineering.

## Skills Required:
- Frontend development tools (React, CSS)
- Python/Node.js
- NoSQL Database Technologies

## Skills Desired:
- Cloud Computing technologies
- Software Testing/Refactoring
- Code with C++/Rust
- Developing Web Apps

**Upload your resume to:**

https://bit.ly/keybyteinterns24

**And send an email to:**

ceo@keybyte.xyz

**with the subject "Awesome Intern!"**

This intern will work under a team of Purdue professors who are the co-founders and are ML and cloud engineering experts and other developers in the team. Following the Summer 2024 internship, there will be an opportunity to continue in Fall 2024/Spring 2025 in our company and/or intern next Summer 2025 again.
